

# x2 French Country Living: Art Food Wine

September 2020

A holiday that combines sketching and painting, with soaking up French culture in SW France: wine tasting at the world-famous Monsieur Brumont's chateau, browsing at a market, cheese-making and indulging in delicious local food. Each morning we will practise techniques in the studio which we can use at that day's venue. On the final day, we will pull together our art and experiences to create a definitive piece of work.

You will be joining a small group of people looking to develop and explore their own personal creativity in a relaxed friendly environment. Beginners to experts are welcome. Two qualified teachers and professional artists will provide guidance and support enabling each individual to work at their own level.

## Provisional dates:

Residential - 7 -12 September 2020

Day - 8-11 September 2020
